

Wired Instructions

1. Connect and plug in power cable.
2. Connect ethernet cable to the digital box & your cable modem.
3. Connect HDMI cable to your digital box and your TV.
4. Using your TV remote, select the HDMI port that the digital box is connected to.
5. Using your new digital box remote, press the red **STB** button to turn on your device and press the home icon. 🏠
6. Use the arrow keys to navigate to the New North Networks tv icon and press the OK button.
7. The guide showing available channels should appear.
